COURSE BACKGROUND AND COURSE OVERVIEW:

The course 'Create the future leaders & innovators in the classroom' introduces to the participants the concepts of innovation & leadership and the necessary skills for future innovators and leaders. The course also addresses the issue of teaching innovation & leadership and the requirements for a stimulating learning environment where future innovators and leaders will be created. Moreover, 'Create the future leaders & innovators in the classroom' course provides participants with examples of how innovators can be motivated, inside and outside the classroom, and the importance of 'passion' in creating our future leaders. Furthermore, the course debates the challenges of Twenty-first century related to teaching and learning, such as teamwork, specialization, risk, creativity, among others. The course is wrapped up with insights related to the innovation & leadership of the future. The course 'Create the future leaders & innovators in the classroom' is an ideal course for all those wishing to develop a stimulus learning environment in which future leaders & innovators will be created. This is a master class course for school principals, academic personnel, teachers of primary and secondary education, VET

trainers and administrative staff and parents interested in motivating their children to become the future leaders & innovators.

COURSE OBJECTIVES:

- To understand the concept of innovation & leadership
- To comprehend the importance of leadership & innovation
- To reach a deep understanding of the barriers imposed by education for leadership & innovation & methods to remove them
- To learn how to teach & motivate a potential innovator & the role of play and passion in a learning environment

CONTENT AND METHODOLOGY:

The course methodology will ensure the active involvement of the participants in all phases, that is, prior, during and after the delivery of the course. More specifically, upon confirmation that the course will take place, the participants will receive preparatory material (if needed), which will cover all important concepts to be presented during the delivery of the course. The participants will have the opportunity to exchange feedback with the organizer of the course, BlueCore Academy, and the trainer as well as to request any clarification related to the content of the course.

The methodology of the training is based on a combination of three important elements:

- Provision of knowledge required (theory)
- Use of training tools, such as case studies, videos, games, animations & exercises (practice - hands on experience)
- Feedback/reflection (review)

During the delivery of the course, the participants will receive hard copy material, which will cover the content to be presented in all five (5) days of the seminar. The material will be presented in a form of Power Point (PPT) presentations, videos & animations. Moreover, the active involvement and hands on experience of the participants will be secured through various training tools, such as case studies, worksheets, scenarios & exercises. These training tools are necessary to ensure that the theoretical knowledge gained by the participants can be used in real life scenarios; an important aspect & added value for any training course.

At the final day of the course, the participants will have the opportunity to reflect on the information received and the experience gained in the specific field of study. Moreover, the participants and their institutions will be encouraged to be members of BlueCore Academy, an international hub and forum for entrepreneurs & innovators to exchange ideas, novel concepts/approaches & best practices in the area of environment and education.

METHODS:

Lectures, exercises, discussions, teamwork, role-playing, study visits

COURSE TOPICS:

Teamwork

Team-building activities
Topic-related activities
Leadership
Management
