COURSE BACKGROUND AND COURSE OVERVIEW:

'Cultivating the Entrepreneurial mindset in Education' is a course that aims to teach entrepreneurship as a method that requires practice. The course is structured and geared around the five practices of entrepreneurship education, that is, play, empathy, creation, experimentation and reflection. The participants will have the opportunity to acquire in depth understanding not only of the theory related to the five practices of entrepreneurship education but also how to apply games and exercises in each one of them in order to create a stimulus learning environment. The course 'Cultivating the Entrepreneurial mindset in Education' is an

ideal course for all those wishing to teach elements of entrepreneurship in the classroom as well as all those wishing to apply the basic building blocks of entrepreneurship in everyday life.

COURSE OBJECTIVES:

- To understand the concept & the various types of entrepreneurship
- To comprehend the difference between entrepreneurship as a method in comparison with that as a process
- To comprehend the five practices of entrepreneurship education
- To learn how to teach the five practices of entrepreneurship in the classroom
- To Understand the importance of both theory & practice in teaching entrepreneurship

CONTENT AND METHODOLOGY:

The course methodology will ensure the active involvement of the participants in all phases, that is, prior, during and after the delivery of the course. More specifically, upon confirmation that the course will take place, the participants will receive preparatory material (if needed), which will cover all important concepts to be presented during the delivery of the course. The participants will have the opportunity to exchange feedback with the organizer of the course, BlueCore Academy, and the trainer as well as to request any clarification related to the content of the course.

The methodology of the training is based on a combination of three important elements:

- Provision of knowledge required (theory)
- Use of training tools, such as case studies, videos, games, animations & exercises (practice - hands on experience)
- Feedback/reflection (review)

During the delivery of the course, the participants will receive hard copy material, which will cover the content to be presented in all five (5) days of the seminar. The material will be presented in a form of Power Point (PPT) presentations, videos & animations. Moreover, the active involvement and hands on experience of the participants will be secured through various training tools, such as case studies, worksheets, scenarios & exercises. These training tools are necessary to ensure that the theoretical knowledge gained by the participants can be used in real life scenarios; an important aspect & added value for any training course.

At the final day of the course, the participants will have the opportunity to reflect on the information received and the experience gained in the specific field of study. Moreover, the participants and their institutions will be encouraged to be members of BlueCore Academy, an international hub and forum for entrepreneurs & innovators to exchange ideas, novel concepts/approaches & best practices in the area of environment and education.
